

Carter Smith

New York Metro area | Phone: (201) 725-8262 | E-Mail: carter_smith@brown.edu

EDUCATION

Brown University, *Sc.B. in Mechanical Engineering* | GPA: 3.7 Providence, RI | **Expected Graduation May 2027**
Relevant Coursework: *Computer Aided Visualization & Design, High Reynolds Number Flows, Dynamics & Vibrations, Circuits & Signals, Electricity & Magnetism, Solids & Structures, Fluid Dynamics, Scientific Computing, Thermodynamics, Materials Science*

WORK EXPERIENCE

- adidas**, *Footwear Development Intern* Los Angeles, CA | May 2026 - Aug 2026
- Engineered 6 basketball traction patterns for adidas's Basketball Footwear team using Grasshopper and Rhino
 - 3D-printed PolyJet molds and cast thermoplastic polyurethane outsoles to produce samples for wear and bio testing
 - Presented 3D footwear concept to adidas Running BU for Intern Innovation Challenge
- Nereus Systems**, *Undergraduate Chassis Lead* Providence, RI | Feb 2026 - May 2026
- Soldered custom PCBs for 6 robotic chassis components
 - Fabricated coils and custom payload housings for an autonomous underwater vehicle
 - Supported mechanical prototyping and assembly for Woods Hole Oceanographic Institution (WHOI) partnership
- Morgan Stanley**, *Global Capital Markets Intern* NYC, NY | June 2025 - Aug 2025
- Supported internal approval process for the Union Pacific Norfolk Southern \$85Bn Merger
 - Led pipeline meetings for GCM leadership
 - Developed client-facing materials including treasurer presentation decks
- Arcadis**, *Water Engineering Intern* NYC, NY | May 2024 - Jul 2024
- Reviewed 20+ submittals and project memos using Bluebeam Revu and ArcGIS
 - Analyzed CCTV data from 300+ sewer and storm drains in the Battery Park City area
 - Integrated green infrastructure into ArcGIS maps for a significant water quality management project

ENGINEERING PROJECTS

- adidas Basketball Traction Analysis** Los Angeles, CA | June 2026 - Jul 2026
- Engineered 6 traction patterns to fit on an adidas Spezial using Rhino and Grasshopper
 - Outlined testing protocol for 12 different rubber compounds and 6 different tread patterns
 - Communicated with factories in Vietnam to get varying hardness, abrasion, and additive outsoles
- SolidWorks Blender Design** Providence, RI | Apr 2026 - May 2026
- Modeled blade component of a kitchen blender assembly in SolidWorks
 - Conducted motion, structural, tolerance, and manufacturing FEA analyses
 - Charted blade displacement and motor torque
- Airfoil Optimization** Providence, RI | March 2026
- Worked to design, simulate, 3D print, and wind-tunnel test an airfoil optimized for the highest coefficient of lift at stall
 - Evaluated how airfoil geometry influences aerodynamic performance
 - Wind-tunnel tested a NACA 4415 airfoil, benchmarking XFLR5 simulations against experimental lift/drag data
- EMG-Controlled Robotic Claw Project** Providence, RI | Dec 2025 - Jan 2026
- Integrated EMG-controlled servo system using Arduino to actuate a 3D-printed robotic claw
 - Designed and 3D printed four servo housing iterations
 - Prototyped two claw geometries, evaluating grip performance and servo compatibility

COMMUNITY ENGAGEMENT EXPERIENCE

- Athlete to Athlete**, *Mentor* Providence, RI | Jan 2025 - Present
- Provided personalized guidance to help young student-athletes
 - Led mentorship sessions on time management and performance strategies
- Project Goal**, *Student Athlete Volunteer* Providence, RI | Sept 2023 - Present
- Organized and led soccer training sessions for over 40 children through Project Goal
 - Developed practice plans that catered to various skill levels

ATHLETIC EXPERIENCE

- Brown Men's Soccer**, *Player* Providence, RI | Aug 2023 - Present
- Competed at the NCAA Division 1 level in the Men's Ivy League
- Trinity School Track and Field**, *Sprinter* NYC, NY | Nov 2022 - Jul 2023
- 2023 Sprint Medley Relay Nike National Champion

SKILLS & INTERESTS

Technical Skills: SolidWorks, Rhino, Grasshopper, MATLAB, Python, Excel, PowerPoint, Adobe Illustrator, Arduino, FEA
Language: Conversational Spanish; completed 2-week immersion at Instituto Cultural Oaxaca
Interests: Cooking, Thrifting, Biking, Arsenal FC, Jiu Jitsu
